

Name: \_\_\_\_\_ Date: \_\_\_\_\_

## Perform an Activity: Ecosystem Field Study

### RECORDING SHEET

#### Part A: Field Work—Abiotic Features

Use the following fields to record measurements of each of the abiotic features listed in Step 4 of this activity.

Wind speed: \_\_\_\_\_

Temperature at ground level: \_\_\_\_\_

Temperature 1.5 m above the ground: \_\_\_\_\_

Soil temperature: \_\_\_\_\_

Relative humidity: \_\_\_\_\_

Percent canopy cover: \_\_\_\_\_

#### Part B: Field Work—Biotic Features

Use Tables 1–5 to record the data you collect on local species for Step 5 of this activity.

**Table 1** Local Bird Species

Bird species	Name	Location	Description/Notes

**Table 2** Local Mammal Species

Mammal species	Name	Location	Description/Notes

Name: \_\_\_\_\_ Date: \_\_\_\_\_

## Perform an Activity: Ecosystem Field Study *(continued)*

**Table 3** Local Invertebrate Species

Invertebrate species	Name	Location	Description/Notes

**Table 4** Local Insect Species

Species found along ground or log	Name	Location	Description/Notes

**Table 5** Local Aquatic Species

Pond or stream species	Name	Location	Description/Notes
