

Organ Systems

Skeletal System

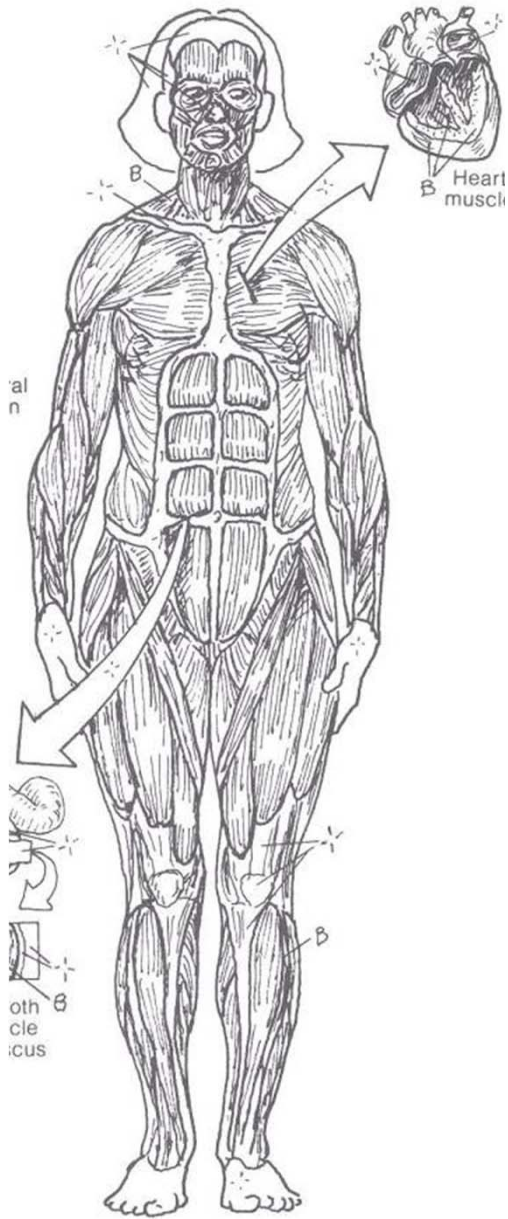

- Supports body
- Protection

Includes:

- bones
- joints
- ligaments
- cartilage

Muscular System

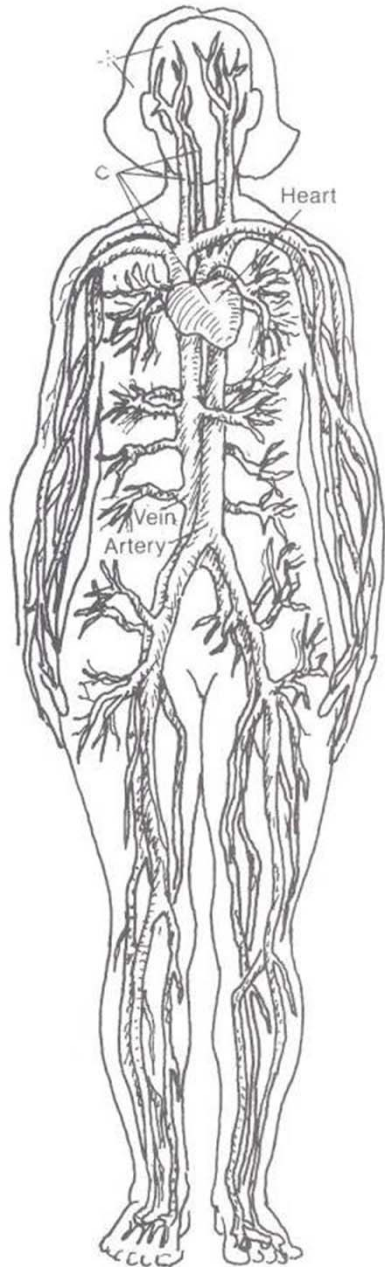

- Movement

Includes:

- muscles
- tendons

Circulatory System

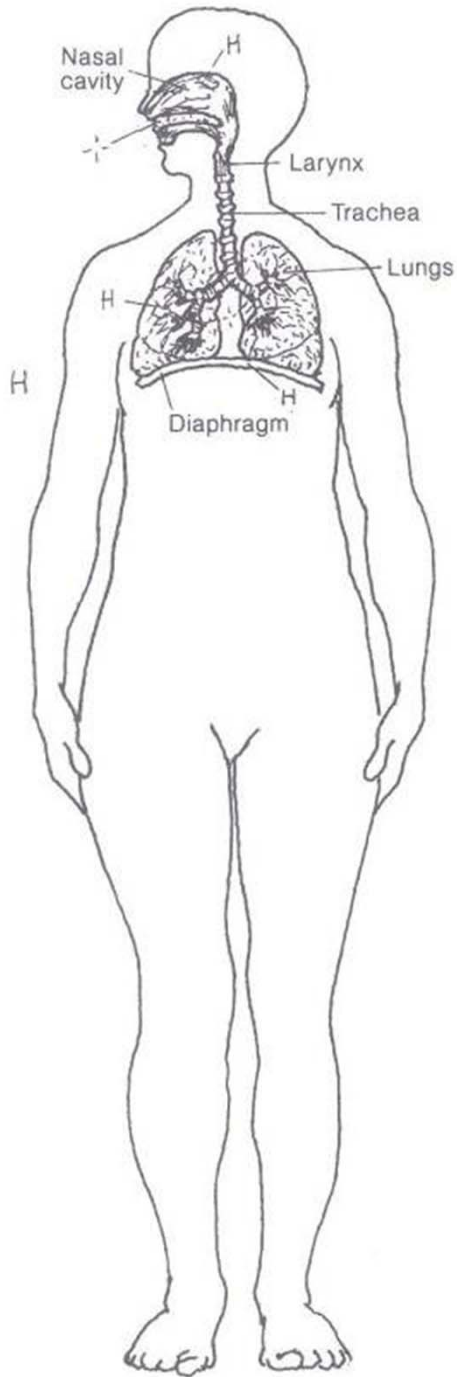

- Transport nutrients & gases

Includes:

- heart
- blood vessels
- blood

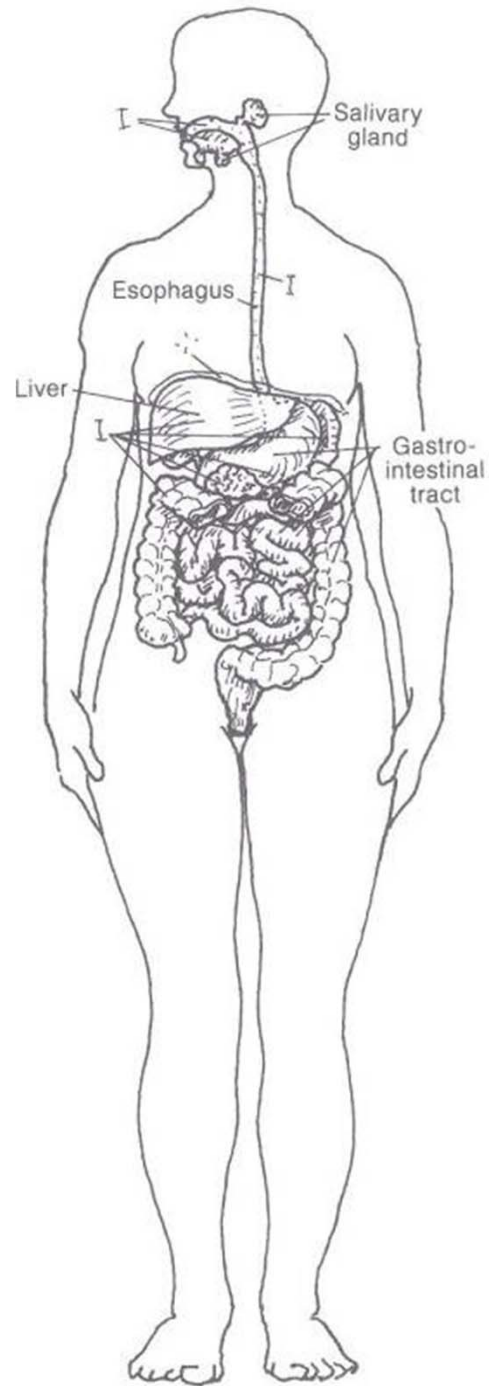

Respiratory System

- Gas exchange
 - Oxygen in
 - Carbon dioxide out

Includes:

- lungs
- nose
- trachea
- bronchi
- diaphragm

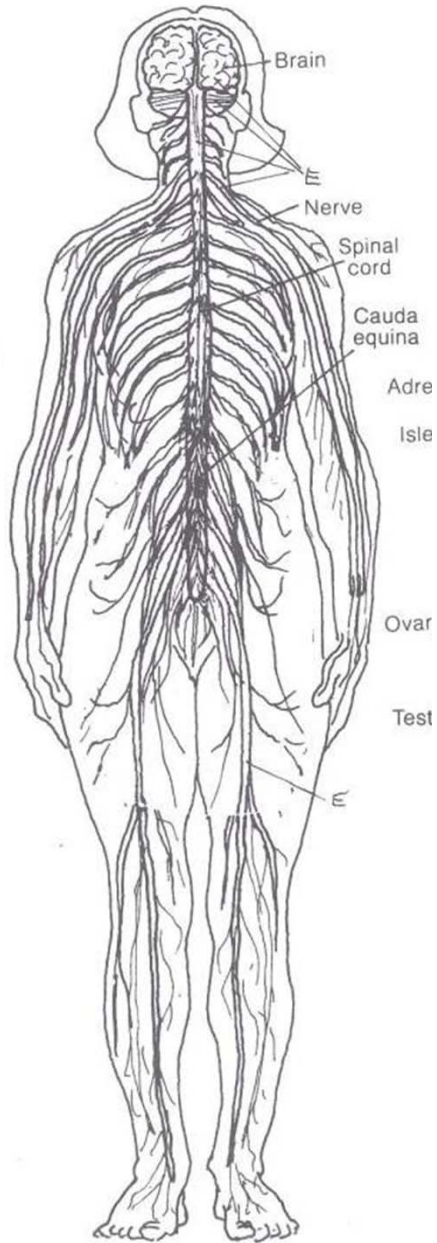

Digestive System

- Breakdown food
- Get rid of waste

Includes:

- mouth
- stomach
- intestines
- teeth
- liver
- pancreas
- tongue

Nervous System

- Send and receive messages

Includes:

- brain
- spinal cord
- nerves

Reproductive Systems

- Produce offspring

Includes:

- penis, testes, prostate
- vagina, ovaries, uterus
